SUMMARY

I am currently a 4th year Computer Science major here at UC Davis working at Creative Media. I specialize in a range of languages from Python to PHP integration with MySQL and Postgres in the backend and utilizing HTML, CSS, JS, and jQuery for professional and clean user interfaces.

EXPERIENCE

Lead Programmer, Creative Media

Davis, CA - July 2012 to Present

As the Lead Programmer at Creative Media I coordinate all the projects that pass through the student body at UC Davis. This ranges from iOS development to creating websites for the various organizations, to managing transactions for services.

Accomplishments

- Created a secure and modern design for our student body elections
- Began and headed the transition from using PHP/Zend to Python/Django
- Managed over 20 websites for organizations, local businesses, and professors
- Maintain and secure multiple servers and websites
- Extensive work in Linux server environment
